The peer summary support provides aggregated data by cohort type and year for the entire peer group

Institutions that choose Level 2 or Level 3 membership may create online Summary Reports. There is no limit to the number of summary reports that you may create using the Summary Report Tool.

CSRDE Custom Peer Report

Sample of the Detailed portion of a Peer Report created using the online Quick Query System

Data with cohorts of 5 or fewer is not displayed

Institution-specific data is provided in Peer Reports by cohort type and year. Institutional names are displayed in actual report.

Institutions choose 5-20 peers to be included in the complimentary peer report. The full Peer Report consists of four parts: Detailed report, Summary report, Characteristics report, and Documentation report.

The Summary Report provides aggregated data by cohort type and year for the selected categories.

Institutions choose 5-20 peers to be included in the complimentary peer report. The full Peer Report consists of four parts: Detailed report, Summary report, Characteristics report, and Documentation report.

The Summary Report provides aggregated data by cohort type and year for the selected categories.

Institutions that choose Level 2 or Level 3 membership may create online Summary Reports. There is no limit to the number of summary reports that you may create using the Summary Report Tool.
